

WELDING AND CUTTING WARRANTY ENDORSEMENT

Attached to and forming part of the Commercial General Liability (Form CGL)

In consideration of the premium charged, "you" warrant that in respect of all welding or cutting operations performed by or on behalf of "you", away from "your" premises, the following precautions will be taken:

- (1) the entire area within 7 meters (20 feet) of the location of welding or cutting will be swept and kept clean. Before and after all such operations the immediate area shall be hosed down with water unless the use of water could or would cause damage.
- (2) A firewatcher will be present during all welding or cutting operations and will be prepared and able to perform fire detection and protection duties during such operations.
- (3) The firewatcher will remain at the location where welding or cutting operations are performed at least 30 minutes after such operation has been completed and will inspect the immediate area.
- (4) During any welding or cutting operations a 20-pound fully charged multi-purpose ABC fire extinguisher bearing Underwriters Laboratories of Canada label will be placed within 7 meters (20 feet) of such operations.

Violation of this warranty will void the insurance provided by the Commercial General Liability form.

Except as specifically modified by this Endorsement, the terms, conditions, exclusions and limits of liability of the Policy are unchanged.
